Laundry Detergents

Stout & Fresh™ PCL

Chlorinated, Powdered Laundry Detergent for Dairy Towels

- Cleans, whitens, and softens better than high-end household detergents
- Organic chlorine is gentle on towels so towels last longer
- Sanitizes
- Eliminates the need to dry towels if used within 6 hours of washing. Towels may be used moist after a spin dry in the washer, saving money on dryer electricity
- Industrial strength
- Hot or cold water can be used, although warm water is recommended

ORDER INFORMATION

20 lb.	8523850
100 lb.	8523851
400 lb.	8523852

Tru-Blu Powdered Laundry™

Powdered Laundry Detergent

- Use for dairy towels or home laundry
- Cleans tough stains better than most household brands

ORDER INFORMATION

40 lb.	8523534

Sani Brite™

Super Premium Heavy-Duty, Stain-Removing Liquid Laundry Detergent

- Cleans and brightens and even removes tough, hard to remove, iodine stains
- Formulate with quaternary ammonia to help prevent the spread of mastitis
- Contains a powerful blend of soil suspenders, cleaning agents, and water conditioners
- Easy to use - can be used in automated liquid laundry dispensing systems
- Phosphate-free - environmentally friendly and eco system safe

ORDER INFORMATION

5 gal.	8524045
15 gal.	8524137

Tru-Blu Liquid Laundry™

Premium Liquid Laundry Detergent

- Economical and easy to use
- Cleans and brightens even tough organic stains
- Use for dairy towels or home laundry
- Easy to use - can be used in automated liquid laundry dispensing systems

ORDER INFORMATION

4x1 gal.	8523417
5 gal.	8522290
15 gal.	8522291
55 gal.	8522871

See page 61 for more laundry detergent dispensers.

Other Specialty Products

Revitalobe™

High Foaming Lobe Style Pump Cleaner

- Uses mild acid formula, unlike the alkaline formulations in other lobe pump cleaners which can leave a hard mineral build-up inside the pump
- High foaming surfactants help break up those mineral build-ups and keep the pump running more efficiently
- Clean pumps last longer and use less electricity
- Uses biodegradable, all natural ingredients that are safe for the environment

ORDER INFORMATION

4x1 gal.	8523848
5 gal.	8523849

BedCide™

Dairy Bedding Conditioner

- **BedCide kills mastitis-causing bacteria!** Some bedding conditioners can only attempt to inhibit bacterial growth. *BedCide* has been developed with a special formulation of **Chlorine Dioxide** - the same broad spectrum germicide found in many premium teat dips!
- **BedCide absorbs more moisture than the competition!** Moisture can be the home, food, and transportation for bacteria.
- **BedCide extends the life of bedding material** by reducing bacteria and moisture content.
- **BedCide is a far better value than lime.** *BedCide* is more absorbant than lime and requires only a few ounces/milliliters per stall compared to several pounds/kilograms of lime.
- **BedCide is safe** for your cows, the environment and for you - but it's murder on mastitis-causing bacteria.
- **BedCide is easy to use** and needs no special handling or equipment. It's easily and safely applied by hand.
- **BedCide repels flies** in the bedding area. Fewer flies around your cows provides a healthier, more comfortable environment.
- **BedCide smells great** and is made with Eucalyptus and Yucca plant extracts. This helps reduce noxious ammonia odors found in the stall area.

Premium Livestock Water Treatment for Your Dairy Cows

Maximize Production and Increase Profits

Water that carries an unpleasant smell or flavor may be more than just a simple annoyance for your cows.

If your cows are not drinking their appropriate daily water volume, you could be losing milk production.

H2Oxy™

Restore the Natural Flavor of Your Livestock Drinking Water with H2Oxy™ and Help Maximize Milk Production

H2Oxy™

Livestock Water Treatment

Increases Milk Production and Profits!

- Restores the natural flavor of your livestock's water so your cows drink more
 - Reduces iron, hydrogen sulfide (rotten egg smell), and other trace elements that reduce water consumption
- Helps keep your water tanks and water system clean of algae and slime
- Saves time and labor when cleaning your water tanks
